The Daily Republican.

DECATUR, ILLINOIS:
Thursday Evening, May 6.

THE DAILY REPUBLICAN will be delivered to subscribers in any part of the city, at Twenty Cents per Week.
Local Notices will be inserted at Ten Cents per line for the first insertion, and five cents per line for each subsequent insertion. Rates for time advertisements will be furnished upon application to the office.

TO DAILY SUBSCRIBERS.

Subscriptions to the DAILY REPUBLICAN will be collected every Saturday, at the place where the paper is delivered, unless otherwise ordered.
We would be much obliged if our subscribers would inform the carrier at what particular place they desire their papers to be left.

CITY DEPARTMENT.

For fresh fruits and vegetables, go to Hubbard & Co.'s.

Mr. E. Luttrell is having a nice two-story frame dwelling erected on Sigel street.

Stationery, of superior quality, at L. J. Davis & Co.'s.

The hotels are having a lively run of custom just now.

Choice Java coffee, at D. M. Barnett & Co.'s.

Report says that Major Miller is about to take charge of a newspaper in Danville.

New maple sugar, at Lewis & Milliken's.

Messrs. Kramer & McClelland are just finishing up a fine pony phaeton for James Millikin, Esq.

For pure drugs, choice toilet goods, and all approved patent medicines, go to W. C. Armstrong's.

Doctors have plenty to do. Their practice is more extensive at present than it has been for months.

Try Kopley's Flor de Elixir cigars.

That new iron fence which is being put up in front of W. P. Busher's residence, is admired by all who see it. It is of a new style, and is very handsome.

Try Niedermeyer's sugar-card hams.

Though sunshine is plenty to-day, it should be used sparingly, so as to make it last as long as possible.

John W. Hatley, the green grocery man, is painting up the interior of his establishment.

Several weddings are in the wind. Parties interested should take care that they the weddings we mean—don't blow away.

Snyder & Giehl physicians' prescriptions with care and accuracy, from pure drugs.

Our streets have a lively appearance to-day. A large number of ladies, who have been housed up by the bad weather of the past few days, are making the most of sunshine in doing up their shopping against another rainy day.

Walter Simpson, having graduated from the printing office, and retired from the hotel business, is now engaged as chief clerk at Amzi Bar's fashionable resort, west side of the old square.

For fresh bread, choice crackers, a lunch or square meal, go to B. F. Stevens on South Main street.

Our justices are kept pretty busy now-a-days, although police cases are scarce. Civil suits are plenty. Yesterday thirty-five civil cases were commenced in "Square Highways" court.

The "Field of Ice," at the opera house to-morrow night.

This week will make out one-fourth of the month of May, and no corn is yet planted in this part of the State. This puts us back to about New Hampshire planting time, corn usually being put in, in that State, between the tenth and 20th of May.

For perfectly fitting custom-made boots, go to J. P. Marsh; also, examine his fine stock of ready-made work before purchasing. Everything is on the square.

The importance of drainage to the business part of the city was again made apparent by the rains of last week and this. Several collars under business houses have been rendered almost useless for several days by water settling in them. A comparatively small expenditure upon a good system of drainage, would obviate the whole difficulty.

The "Daniel Boone Combination" is to play here the first three evenings of next week. On Monday evening "Daniel Boone" will be rendered, and in this Mr. J. A. Stevens has probably no superior. The Bloomington papers speak in the highest terms of the talent of the company, and are particularly complimentary to Mr. Stevens and Carlotta.

It is strange, yet true, that while the grasshoppers are appearing in countless thousands in Kansas, and are devouring almost everything of a vegetable nature, they never touch flax. A letter recently received by the Sawyer Bros. from their agent in Kansas, says that the two car loads of seed they sent to the sufferers had been planted, and the crop was in every way a promising one; also, that while the "hoppers" devour nearly all vegetation, they never touched the flax.

Dramatic.—The Carrie Wight Dramatic Combination Company is one of the best in the country. To-morrow night they present the "Sea of Ice," which is one of the finest spectacular dramas ever put upon the stage. There will no doubt be a crowded house.

Corsets, in all styles and sizes, at 444-1/2.

All Ready.—Immense stock of boots and shoes, just received by Powers, Ferriss & Co., for spring trade—all good goods. All ready now to show the latest styles—stock all in—biggest variety we ever had.

ABANDONED.

On the 12th of August, 1874, Mr. J. E. Boring began the work of prospecting for coal, east of the depot. For nine months he labored faithfully, and when there was every reason to believe he was very near to the point where his hopes would be realized, an untoward accident destroyed the fruits of all his labors and expenditures. Some four weeks ago, when the "bore" had reached a depth of 950 feet and 9 inches, the sand pump was dropped, and all efforts to recover it were unavailing. With a view of recovering it an iron rod was lowered, but this meeting with some obstruction became fast, and it was found impossible to remove it, so that in addition to the sand pump the rod became a fixture, and thus rendered the hole entirely useless. Several weeks were spent in vain endeavors to get the obstacles out, but it became evident to the practical mind of Mr. Boring that this was an impossibility, and the work was therefore reluctantly abandoned a few days ago.

Mr. Boring has kept an exact and accurate record of his borings, and the profile—we are informed—corresponds precisely with the record of borings at Vidua and Howles. According to this record, and reasoning by analogy, Mr. Boring was not far from the vein which is workable at the two points named, when he was stopped by his unfortunate accident. Probably a few feet more would have reached the precious black diamonds.

It seems to us that it would be unwise now to abandon all efforts towards developing our coal interests, because of this unavoidable calamity, and we are equally sure that Mr. Boring should not be expected to go on unaided in the work of making a new bore. The matter is of such vital importance to us that our moneyed men ought to lend a helping hand and go on with the work without delay. We understand that Mr. Boring is willing to try again, provided the proper encouragement is extended to him by our citizens. Who will move in the matter?

Temperance Lecture.—Our people will remember the temperance lecture this evening, at the court house, by Rev. Mr. Tatum. Mr. Tatum is spoken of by those who have heard him, as being a man of marked ability, and we have no doubt he will deliver an able lecture.

Just Received, at H. Einstein's, a large lot of black and white face Points—very cheap. 5-11w

Texas Land Warrants for sale in quantities to suit, at the low price of 25 cents per acre, some of the best agricultural, grazing and mining lands in the United States. Call at our office and get maps, documents and explanations before buying. R. B. Durfee will leave for Texas early in May, and give his personal attention to locating these lands if desired.

Warren & Durfee, Agents for the sale of Texas lands and warrants.

Official Paper.—By reference to the council proceedings it will be observed that the city printing for the current municipal year was awarded to the REPUBLICAN. It seems that the city authorities have decided to have their printing sold done for one year, anyhow.

Always Ahead.—Goldberg sells Ladies' and Children's Suits, the latest styles at the lowest prices. 4-14w

A Dog Taken in Arms.—A day or two ago a little boy in the north part of the city, looking up suddenly, beheld with horror a police officer "drawing a bead" on his favorite rat terrier. The little fellow rushed to the spot, seized the pet in his arms, and made home with him at the very muzzle of the officer's shot gun.

Match Game of Base Ball.—A match game of base ball will be played to-morrow morning, at 9 o'clock, on King's common, between the "Stars," of this city, and the "Yellow Jackets," of Cairo, Illinois.

Ladies' White Underwear, Aprons for ladies and children, at 4-14w

A Narrow Escape.—To-day at noon, when "buses" were coming from the depot, several small boys were at play in front of McCreary's Hotel, and just as the "bus" came in front of the place, one of the little fellows, not observing the team, ran directly in front of it, when the truck yoke struck him, knocking him down. The horses stepped over the prostrate lad, and were brought to a halt when one fore-wheel of the "bus" was within six inches of his neck. Had the wheel passed over the boy's death would have been inevitable. Much credit is due the driver for his promptness in stopping his team.

Kid Gloves, Fancy Goods, Notions—A large stock always on hand, and sold cheap, at 4-14w

Mrs. Dr. Thompson will lecture to ladies at the Universalist Church, Friday and Saturday, May 7th and 8th. Admission 50 cents. Mrs. T. gives electricity and cuppings at the residence of J. G. Starr, 31 West Main street, and having practiced over twenty years, will warrant cures in the various chronic diseases. Call and see her, from 10 A. M. to 8 P. M. Catarrh cured in one month. 5-12w

Near Forsyth, on Wednesday, May 5th, of pneumonia, WILLIAM MACAW, aged 33 years.

The funeral took place this afternoon.

FAST DRIVING.

This morning at nine o'clock was the time fixed for the trial of Wm. Donovan for driving one of Capt. Mason's horses nearly to death. The defendant consulted his attorney and decided to take a change of venue from Justice Albert to "Squire Hughes" court. The change was granted, and at 10 o'clock the trial was commenced by the examination of

POLICEMAN WILKINSON, who gave a detailed account of Donovan's conduct when the witness arrested him.

Following this witness came Geo. Lyon's, Alfred Wausch and several others, all testifying that the defendant was driving the horse when they saw him.

The evidence of John Klett, an honest old German, was given in broken English and in a loud, earnest tone. He never swerved from the straight path of truth, and all Mr. Lee's cross-questioning could not make the witness contradict himself in the least. His eccentricity frequently occasioned considerable merriment among all present.

Several horsemen next testified as to the extent of the injury done to Capt. Mason's horse.

The case is being argued by the attorneys as we go to press.

Boarding House.—The undersigned has taken possession of the house, at the corner of William and Church streets, known as the Towbridge property, where she will keep a first-class boarding house, and accommodate guests by the day, week or month, at reasonable rates. May-13m Mrs. G. W. WILLIAMS.

POLICE NEWS.

This morning Officer Condon brought in from the depot caboose three men charged with intoxication who gave their names as Thomas Matthews, Richard Dixon and Daniel Dunn. They were all taken into Justice Albert's court, where they pleaded guilty, and each was fined the usual \$3 and costs. Matthews had money enough to pay his fine, and upon plunking it down, he was at once released. The other two, less fortunate and dead broke, were sent to the calaboose to remain there confined until the amount of their fines is either paid or "boarded out."

Every Seven Years physiologists say, the human body is entirely changed and renewed. Every moment of our lives, every part of our bodies is wearing out, and being built up anew of fresh matter. This work is accomplished by the blood, which goes through every part. But if the blood becomes weak or vitiated, and does not perform its work properly, the system is actually poisoned by the worn out matter clogging the vital organs instead of leaving the body. For dyspepsia, biliousness, kidney, skin and liver troubles, fevers, and all diseases arising from vitiated blood, Dr. WALKER'S CALIFORNIA VINEGAR BITTERS are a sovereign remedy. 33-dtf

READ UP, BROTHER ANDREWS.

The zeal of new converts is proverbial, but we were hardly prepared to read the following, which appeared in yesterday's Decatur Tribune, the present organ of the Democracy of the county, which, though controlled by "farmers" who were all formerly Republicans, is now putting forth its best efforts to help elect a Bourbon president in 1876:

"A large number don't know they can get a part of the tax they paid last year refunded by calling on the County Treasurer. But it is true, thanks to the Supreme Court, who said the Republican King must go slower, and our last legislature, who ordered these stealings refunded. Just walk up to Park's office and get your stamps."

We say we were not prepared for the above, because of the faith we have always had in the intelligence of men who were once sensible enough to be Republicans, though experience ought to have taught us to put but little confidence in the virtue of any man who, having once beheld the light which illuminates the pathway of Republicanism, so far backslides as to wander off into the dark and devious ways of Democracy. We can only account for the downright perversion contained in the squib above quoted upon the hypothesis that it originated in the fertile imagination of the gentleman from the grasshopper regions, who now furnishes material pabulum to the Democrats of Macon county through the columns of the Tribune, and even he would scarcely venture to charge the "tax grab law" upon the Republican party if he had lived in Illinois long enough to become familiar with its history and politics.

The "tax grab law," as it is called, can only be stigmatized as a party measure, by calling it a Democratic measure, which we will endeavor to show from the records. The bill appears upon the journals of the general assembly of 1869 as Senate Bill 585, being "An act to fund and provide for paying the railroad debts of counties, townships, cities and towns." It passed the Senate March 3, by a vote of 15 yeas to 9 nays. Of those voting in the affirmative, 9 were Republicans and 6 Democrats. The yeas were 8 Republicans and 1 Democrat. The bill was reported to the House March 5th, and passed by a vote of 54 yeas to 16 nays. Of those voting in the affirmative 33 were Republicans and 21 Democrats. The yeas were 14 Republicans and 2 Democrats.

The bill was vetoed by Gov. Palmer, (then a Republican,) and on the 15th of April it passed both houses. "The objections of the Governor to the contrary notwithstanding." On its passage over the veto the vote in the Senate stood, yeas 14, nays 11; or, politically considered, yeas 8 Republicans and 6 Democrats, nays, 10 Republicans and 1 Democrat. In the House the bill was passed over the veto by a vote of 19 yeas to 30 nays, the political aspect of the vote being 27 Republicans and 22 Democrats in the affirmative, and 27 Republicans and 3 Democrats in the negative.

The principal champion of the bill was the late Samuel K. Casey, of Jefferson county—long a shining light in the Democratic party, and the solitary Democratic Senator who voted in the negative (Whittenden, of Adams) has never since had any standing with his political brethren. Only four Democrats in both houses voted against the bill, while 28 Republicans stand recorded as voting against the iniquitous measure.

If the Democratic organ can extract any comfort from this showing, or make any capital for the glory of the new political divinity at whose shrine its triune editor worships, let it do so, but its conductors would probably expose themselves to less ridicule from an intelligent public if they were to devote a few hours each week to a careful study of the political and legislative history of the State of Illinois—permitting that of Kansas to net only as a seasoning by way of "frightful example."

The case in a nutshell. A lady entered a street car in Richmond, Va., not long since. The only vacant seat was by a manly looking colored woman. The latter politely drew away her skirts and made all the room possible. The true-borne Southerner declined the seat with a scornful toss of the head and a tip-of-the-nose more than nature had given it. "Lor' bless ye, honey," said the colored woman, smilingly, "If ye owned me you'd sit in my lap."

The crop of corn and wheat in Texas is being harvested this month.

WE ARE ALL TURNING INDIANS.

A Mr. Howarth, of London, thinks the American people are acquiring the physical peculiarities of the Indian. In a recent essay he says: "The change that 220 years have produced in the inhabitants of the old States of New England is most marked. Although of Anglo-Saxon, or rather of English descent, they have acquired a very distinct type. Their hair has grown long, scant and wiry; their whiskers have also disappeared, and the hair on the face has been more and more confined to the chin. The face has grown square, the cheek bones projecting, the limbs long and wiry, the body thin, the color sandy and brown, and so markedly that the typical Yankee is a well known sub-variety of the human species. In all these respects the race has rapidly approached to the indigenous American type, namely, that of the Indian. It will not be argued that this has been due to the mixture of native blood. Neither will it be argued that natural selection has produced it. * * * * *

The tendency of the American type is to die out, and the population is practically kept up by the immigrants and their immediate descendants of two or three generations. The only reasonable cause is a change of climate, &c., which rapidly converts the English type into one like the indigenous Indian, a great external cause dependent upon no struggle of individuals, not operating from within, but acting upon the whole race simultaneously."

The Republican State Convention of California has been called to meet on the 10th of June, and the opinion of the State Central Committee was, at its recent meeting, that an aggressive campaign should be made. Several prominent eastern speakers have agreed to take part in the canvass.

A FRENCH astronomer has been the first to make a computation of the sun's distance from the earth on observations of the recent transit of Venus. According to his figures, the earth and sun are 91,000,000 miles apart, the solar parallax being 8.879 seconds.

WASHINGTON, May 5.—The displacement of the Commissioner of Internal Revenue, Douglass, was a surprise to that gentleman. Yesterday afternoon Secretary Bristow called on him, saying he did so at the request of the President, and informed him of his displacement. Mr. Douglass was assured that it was not because of his integrity as a man or officer, and expressed himself satisfied with this.

ST. LOUIS, May 5.—A Kansas City special to the Republican says information has been received at Wallace that the Indians continue their attacks. Skirmishes are reported fifty miles north of Wallace. The Pawnees, Cheyennes, and Sioux are crossing the road and moving northward. The Government has ordered troops for the protection of the settlers.

BEECHER-TILTON.

Stephen Pearl Andrews Tells what he Knows of "Vickey."

H. C. BOWEN ON THE STAND.

Indians on the War Path.

MOVEMENTS OF THE VICE PRESIDENT.

PROSPECTS OF A EUROPEAN WAR.

NEW YORK, May 5.—Stephen Pearl Andrews continued his testimony this morning in the Beecher-Tilton trial. The witness testified that he was present at the gathering at Woodhull's house on the occasion referred to; was present; she sat beside Tilton and described his character to him from perceptions of it; no undue familiarity between them; after the death of witness wife he resided with Mrs. Woodhull; there were then in the house Mrs. Woodhull, Miss Claflin, Dr. Woodhull, Col. Blood, Mrs. Woodhull's father and mother, and the servants; witness was asked who frequented the house during the period of his residence there; witness mentioned several prominent men, among others Wm. Orton, Whitelaw Reid, G. B. Frothingham, and among the ladies, Mrs. Stanton and Miss Anthony; he often saw Tilton and Mrs. Woodhull together, but never observed undue familiarity between them; he was himself, in a sense, author of the scandal article published in Woodhull's paper, having contributed to the writing of it within four or five days of its publication; the beginning and end were his composition, and he read the proof at his room; so far as witness knew, Tilton had no knowledge about the preparation of this article, and was surprised when it made its appearance, witness didn't see any documents referred to in the article; was at Woodhull's one evening, Cowley was there, but I didn't hear the scandal referred to; there was not, to witness' knowledge, a sofa or bedstead in either parlor of Mrs. Woodhull's house; only know of Tilton's staying at Woodhull's one night—when he was preparing her life, first heard of the scandal from Mrs. Stanton, in Mrs. Woodhull's parlors; witness walked with Mrs. Woodhull in the Russell procession; didn't see Tilton, he wasn't in company with Woodhull or Claflin.

Cross examined.—Witness said he had often heard people address Mrs. Woodhull as "Vickey," and considered this undue familiarity; did not think he ever heard Tilton address her so. Witness marked portions of the scandal article he wrote, and they were offered in evidence. Beach objected, and Judge Neilson said he would take the matter into consideration. Recess.

After recess a large audience assembled, expecting to hear Henry C. Bowen testify, who was present. Mrs. Martha A. Bradshaw, was recalled. She remembered two visits made her by Bessie Turner; one was on December 9, 1870. She told me that Tilton had charged his wife with adultery with Henry Ward Beecher. Fullerton read from Bessie Turner's testimony to show she had denied telling Mrs. Bradshaw this story. Witness said she requested Bessie not to tell anybody about it. Witness was not cross-examined.

John Wood was the next witness. He was printer of Woodhull & Claflin's Weekly from May, 1870, to July, 1872, when publication ceased. In October, 1873, publication was resumed, and the type was set up in witness' office. No part of the scandal article had been set up in his office up to October 26th.

Cross-examined.—The paper containing the evidence was set up from Monday to Saturday of that week. The Beecher article was set up last.

Henry C. Bowen was then called. He testified, I remember a note I took from Tilton to Beecher, Monday, Dec. 26, 1870. I met Mr. Beecher at James Wollard's house, and delivered the note; of this I am positive, it was by appointment, and not at Beecher's house. This was about 4 or 5 o'clock p. m. I did not tell Beecher that I was ignorant of the contents of the note; Beecher said nothing to me about discharging Tilton from the Independent; I don't remember that anything was said about his retention on the Brook Union; nothing about his fitness as editor or contributor to either paper; I presented the letter, he read it, and put it in his pocket. If asked if there was any reply; he said something like the man is crazy. He asked me how I felt, I said I was not unfriendly toward Tilton, but had canceled his engagement; he said he could tell me something about Tilton's family I ought to know. He asked me to call at his house next day and see Mrs. Beecher; he had letters from Mrs. Tilton which he wanted me to see, as they contained statements of a damaging character. I didn't say I brought a letter from Tilton; I didn't know what was in it; I didn't read it; I don't remember that he spoke of the charges of Bessie Turner against Tilton; I received a letter from Beecher in January, 1871, which I have here, a

draft of which is already in evidence of the tripartite agreement and the payment of \$7,000; it has no connection between these two matters; I was always ready to arbitrate. The arbiters sat at Moulton's house. I was torn sat at Moulton's house. I don't recollect anything was said about Beecher's affairs. Witness here described at that arbitration was accomplished at that meeting. [Nothing was said about burning papers between Beecher and Tilton. Claflin waited on me with the tripartite agreement in 1872 and urged me to sign it, but I refused until I had made some alterations, and then I signed it.]

PITTSBURG, Pa., May 4.—Five supposed confidential men were arrested here to-day, believed to be the parties who were baffled in the design to rob the People's Savings Bank in this city yesterday. While the cashier was alone three of them entered the bank separately, appearing to be strangers to each other. Two of them engaged the attention of the cashier, while the third succeeded in getting behind the counter. Their design was frustrated, however, by persons who had observed their movements. They gave their names as James D. Thomas, of Philadelphia; George A. Suydam, of New Jersey; George Palmer and Joseph Riley, of New York, and W. E. Ford, of Chicago.

TERRE HAUTE, IND., May 5.—In the municipal election yesterday the Democrats elected the Mayor by 398 majority, and the City Clerk by 265. The Republicans elected the Treasurer by 1,106, Marshal by 400, and Assessors by 312. The Republicans elected three Councilmen, and the Democrats two. The city is Republican on the vote for Councilmen by a small majority. The Democratic majority last October was 600.

LOUISVILLE, May 5.—Vice President Wilson left for Nashville to-night, having spent the day in company with Gen. Elkin at the old Taylor farm, about five miles from the city, where the body of Ex-President Taylor lies buried. The Courier-Journal Nashville special says the Vice President will be received there in form by Gov. Porter, Mayor Howell and other State and city officers.

CHICAGO, May 5.—The chemist who has been examining the stomachs of members of the Malinski family, who it is believed, were poisoned some months ago, reports he finds no traces of poison, though it may have been there in minute quantities.

LONDON, May 5.—The Paris correspondent of the Times telegraphs that great uneasiness is felt in all well-informed circles in Paris. It is asserted that peace or war depends on the approaching meeting of the Czar and the German Emperor. The belief is based on the fact that a powerful party in Germany, comprising the military element, believe that the late treaty was too lenient. France is rapidly organizing, and will soon be able to furnish a formidable army. Germany is no richer or than before the war; she cannot long support the expense of her military force, and cannot disarm while France is so powerful. The Germans firmly believe that to finish with France now is a duty to Germany and humanity.

AN ORDINANCE.
Regulating the Setting of Curb
and the Planting of Trees upon
the Streets.

Be it Enacted by the City Council of the City of Decatur:

Section 1. The owners or occupants of property within said city, where said property fronts upon an eighty foot street, shall have the right, and they are hereby empowered to set and maintain a curb outside of the sidewalk, and at a distance of twelve feet from the line between such street and the property fronting thereon. And such owner or occupant shall have the right to sod upon the space between the outer edge of the sidewalk and such curb, and plant trees thereon—said trees to be planted on a line twelve feet from the line of such street.

Sec. 2. The owners or occupants of property within said city, where said property fronts upon a street less than eighty feet wide, shall have the right, and they are hereby empowered to set and maintain a curb outside of the sidewalk and at a distance of twelve feet from the line between such street and the property fronting thereon. And such owner or occupant shall have the right to sod upon the space between the outer edge of the sidewalk and such curb, and plant trees thereon—said trees to be planted on a line ten feet from the line of such street.

Sec. 3. Any person who shall hereafter set any curb or plant any tree in any of the streets of said city otherwise than as provided by this ordinance, shall be deemed guilty of a misdemeanor, and shall be fined not less than ten nor more than one hundred dollars for each offense, and the Street Supervisor shall at once remove such curb or tree.

Sec. 4. No person shall set a curb or plant trees under the provisions of this ordinance until the line for such curb or plant trees has first been ascertained and established by the City Surveyor and Engineer.

Sec. 5. Any person who shall ride or drive upon or over any curb, after the same has been established and set under the provisions of this ordinance, with any team, animal or vehicle, shall be subject to a penalty of not less than ten nor more than one hundred dollars for each offense.

Sec. 6. If any trees shall be suffered by the owner or occupant of the premises to grow in such a manner as to obstruct the reflection of the public lamps, it shall be the duty of the City Supervisor to notify the owner or occupant of the premises forthwith to trim the same in the manner to be specified in the notice. If any person shall refuse or neglect to comply with such notice, it shall be the duty of the City Supervisor to cause such trees to be trimmed.

Sec. 7. This ordinance to take effect and be in force from and after its passage and legal publication.
Passed May 3th, 1875.
